# Statement from the Minister

*The Honourable  
Gordon S. Wyant, Q.C.*

*Minister of Justice and Attorney  
General*

I am pleased to present the 2017-18 Plan for the Ministry of Justice.

Government Direction and Budget for 2017-18 is focused on *Meeting the Challenge*, finding the right balance between addressing the deficit and ensuring that Saskatchewan people continue to have the programs, services and infrastructure that they need. Government will deliver sustainable, high quality public services in the most cost-effective way possible.

This plan outlines how the Ministry of Justice will promote public safety and well-being in our communities, support and protect people in vulnerable circumstances, and improve access to justice for Saskatchewan citizens. The Ministry is focused on finding innovative strategies to reduce the demand on the justice system while ensuring access to justice is understandable, timely and affordable for Saskatchewan citizens.

Community safety and well-being is a significant priority for the Ministry. By focusing on targeted policing and community safety initiatives, we will continue to work to make Saskatchewan communities safe for everyone.

At the same time, we will begin to implement a set of interventions designed to reduce the length of time spent by offenders on remand in correctional facilities. These individuals account for a significant use of resources and many can be dealt with in a much more effective and productive way.

We are dedicated to working with our partners to support victims of crime and those individuals in vulnerable circumstances.

The Ministry of Justice will report on progress in the 2017-18 Annual Report.
